

Up until then I had absolutely no belief in an afterlife. But the data convinced me that these were not coincidences or hallucinations. I have no shadow of doubt anymore that there is life after death. Hi, this is Lon Solomon, pastor of McLean Bible Church, and this comment was made by physicist Dr. Elizabeth Kubler Ross, the world's foremost expert on death and dying, after she studied 20,000 people who had near death experiences. Now what's interesting is that God's been telling us that there's life after death for over 5000 years in the Bible. That's why Jesus told us, I am the way, the truth, the life. Nobody gets to heaven unless they come by way of me. Not a Sermon, Just a Thought.
