

If ethical behavior always paid everyone would always be ethical. The difficulty with character is that it does not show up on the balance sheet . Hi, this is Lon Solomon, pastor of Mclean Bible Church, and these words were spoken by Harvard Business school professor, Richard Tedlow. What he is talking about here is world view. Our society has a worldview based on the bottom line, what is legal, what we can get away with. But the Bible presents to us a radically different worldview. One that is based on the fact that God's eyes are in all places, as the Bible says, seeing everything that people do. Here we have a world view that is based on doing what is right and honest and decent because a Holy God was watching. Just think how different corporate America would be if it operated on a Biblical worldview. Not a Sermon, Just a Thought.
